- * In ancient historical times, it was known, esp. in Spiritual Mystery Centers & Schools, there existed a 'Spiritual' Science. The Pre-Socratics, Pythagoras, Xenophon. Egypt. Greece. Paracelsus.
- * Modern reductionist Science has all but obliterated any realization of a Spiritual Science, a science that is NOT at odds with modern Physical Science.
J. W. Goethe, Rudolf Steiner, Alan Chadwick; The Vitalists.
- * Life on Earth is the result of Non-physical forces, beings, energies via metaphysical blueprints. We live in a "Physical-World", that is continually being created by a "Causal-Metaphysical World".

Alan Chadwick (1909-1980) created the Biodynamic-French Intensive approach to horticulture and shared it publicly from 1967 until his death in 1980, via gardener apprenticeship programs in Santa Cruz, Green Gulch, Covelo & Saratoga, CA and in New Market, Virginia.

TWELVE CORE UNIVERSAL PRINCIPLES

(1) The Universe and our physical world is not a collection of random disconnected objects, but rather, a communion of subjects/beings. (Subjects interacting with each other; i.e., resonance). Like tuning forks.

(2) All Beings have both Physical & Non-Physical constructs of beingness. Constellations, Planets, & Plants, Animals, Birds, Reptiles, etc.

(3) Resonance is the exchange of spiritual information, forces and energy between subjects/beings. Soil ~ Plants ~ Planets ~ Constellations ~ Minerals ~ Atmosphere ~ Animals & People all interact with each other via resonance .

**(4) All living beings have a Center and a Periphery.
(Both Physical and Non-physical)**

**(5) Relationships & Dis-Relationships
(Attractions/Repulsions - Sympathies/Antipathies)
The basis of companion planting.**

(6) The physical world is created by and based upon Universal Non-physical 'Blueprints'. The complex Sacred Geometrical Blueprints of Creation.

(7) Non-physical forces, energies and beings, incarnate into the physical world, creating shapes and forms in a certain composition of physical matter, which determine FUNCTIONS.

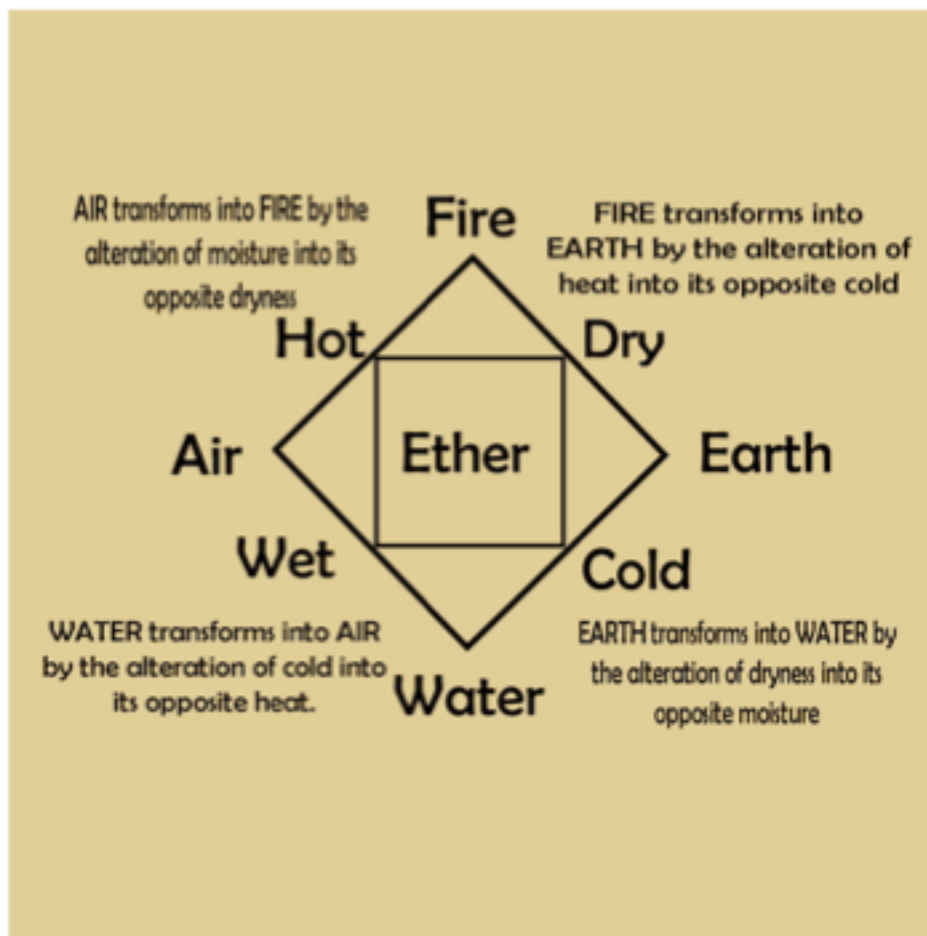

(8) All Life is non-static and in continual flux and change. (Metamorphosis & Cycles)

(9) The birth of Life emerges out of darkness.

(10) All living beings have a birth, increase, apex, decline and death in the physical world on Earth. All physical beings on Earth travel in and out of physical manifestation, in cycles.

(11) We live in a world of Polarity.

(12) Opposition breeds strength.

A 2-Day Workshop On The Biodynamic-French-Intensive approach to Horticulture, Gardening & Design will be given at Living Web Farms on Sat. & Sun., November 10th - 11th, 2018.
